Hi Lisa, On this request, we currently can only restrict left turns in the case of a pattern of collisions.

On this street, I do see a couple of left turn collisions that occurred within the past 5 years, but only one was near the stated hours. I already know from experience that Jeannie won't approve a turn restriction with only one historical collision.

We are currently unable to provide these restrictions based on congestion or bypass traffic.

So at this time I would have to deny the request,
